

Risk Analysis Template

Project name: WikiSLO Prepared by: Corinne Madison Date: January 30, 2013

High Impact/High Probability

Description	Impact	Probability	Mitigation	Response
Car accident	Time and Capabilities could be setback.	50%	Drive safely; maybe choose to take the bus instead	Assess the situation and any injuries if necessary, then proceed to contact insurance, police, etc.
Bicycling Accident	Time and capabilities could be setback.	50%	Wear a helmet and other protective gear. Maybe choose public transportation	Assess the situation and any injuries if necessary, then proceed to contact insurance, police, etc.
Physical Injury due to exploring SLO	Movement and other abilities could be limited.	30%	Wear proper attire – hats, sunscreen, tennis shoes, etc.	Seek medical attention if needed. Otherwise rest area of body and heal.

Risk Analysis Template

High Impact/Low Probability

Description	Impact	Probability	Mitigation	Response
Earthquake	Events and writing could be set back.	10%	Prepare for response in the case of natural disaster	Take shelter under a desk or doorway.
Fire	Events and writing could be set back.	10%	Prepare for response in the case of natural disaster	Evacuate the premises
Carpal Tunnel Syndrome	Typing and hand functions would be limited	5%	Ensure proper posture and procedures for using a computer.	Seek medical attention.
Food Poisoning due to eating at different restaurants	Physical capabilities would be set back.	10%	Ensure food is properly handled and fully cooked.	Seek medical attention, if needed.

Risk Analysis Template

Low Impact/High Probability

Description	Impact	Probability	Mitigation	Response
Sick/flu	one team member is unavailable	50%	Stay healthy; keep away from sick people	Avoid the rest of the team; rest and drink lots of fluids!
Event turn-out isn't as great as planned	Hinders WikiSLO's growth progress	50%	Make sure advertising and marketing is superb and plenty.	Keep trying! More effort and hard work!
